PRESTASHOP THEME GREYLOOK

Thank You For purchasing Prestashop Theme.

If you have any questions, please feel free to contact us via our theme contact form. Thanks again for your purchase.

Step 1 : Installation   Back to Top ⌃

Please, read the whole section, before attempting to install the theme.
IT IS RECOMMENDED TO ALWAYS BACKUP YOUR SYSTEM BEFORE MAKING ANY UPGRADES OR CHANGES !

Theme installation steps:
To install theme on your server, follow the steps shown below
You can install theme by two way :

1.1 : Method - 1
Log in to your site Prestashop Admin panel, Go to **Design** > **Theme & Logo**.
Now click on **"Add new theme"** to add theme.

After that upload **"Greylook_Installer.zip"** (Provided in our Theme Package) in **"IMPORT FROM YOUR COMPUTER"** section as shown below and click on **"Save"** button.

After that upload **"CMS images"** (Provided in our Theme Package)to **"your Installation img folder"** as shown below.

upload image from theme package to cms directory

1.2 : Method - 2

Upload **img**, **modules**, **themes** folder(Provided in our Theme Package) to your prestashop root installation.

upload folders to your installation

Step 2 : Activate Theme

Back to Top ^

Now to activate theme on your site from admin panel, Go to **Design** > **Theme & Logo**. Select our theme **"Greylook"** by clicking on **"Use this theme"**.

YOUR CURRENT THEME

greylook version 1.0.0
Designed by Pixothemes

Configure your page layouts
Each page can use a different layout, choose it among the layouts bundled in your theme.

[Choose layouts]

Now Create **Blog Content**

The blog content includes category and blog items so firstly, you need to create category structure for the blog platform. Create **New Category**

Go to the **"Ps Blog Management » Categories Management"** panel, create new category and configure it, Refer the screenshot below.(Also you can update the existing category from here)

Create New **Blog Item**
Open the "Ps Blog Management » Blogs Management" panel, Here you can see list of all created blog items, you can edit any blog item or hit the "New" icon to create new blog item.

Adding new blog item, assign category, add main & thumbnail images, update intro text and full content for the blog item then save.

Manage **Blog Comment**

On the blog detail page, you can enable or disable the comment form in the "Blog Daskboard" configuration panel. When enabled, user can comment on the blog, and you can manage the comments from back-end. To do that, go to: Ps Blog Management » Comment Management

You can publish or disable any comment, edit comment or add new comment.

Now follow the step to add blog link in your Main Menu. Click on "Module".

Search menu module then configure it

Click on add to add your link in your Menu list

Add new link with name 'blog'

then add this blog url behind your store url

Copy the below code and paste in link tab.

```
?fc=module&module=psblog&controller=list
```

Step 4 : Image Settings   Back to Top ∧

Our live demo uses the following image sizes for product in product information page.

So it's suggested to edit a product image size parameters.

Go to **Design > Image Settings** and update image size for your store.

Refer below screen shot for it.

	ID	Name	Width	Height	Products	Categories	Brands	Suppliers	Stores
